Carine deBeaufort is a Consultant Paediatrician who has specialised in diabetology and endocrinology in the Clinique Pédiatrique de Luxembourg since 1994.

She has been on the council of ISPAD and is currently involved in a number of research initiatives and projects in Luxembourg and internationally, including the EURODIAB study, the Hvidore study group, EUCID and EU BIROD.

A major goal in her work is to improve diabetes care in children and adolescents and to improve the information exchange between centres and countries.

She is married and has 4 children.
